

The PS15 is the perfect solution to low volume processing of pressure seal stationery.

Operating at 1,500 forms per hour the PS15 is dedicated to processing the most widely used A4 Z fold stationery format.

The PS15 is designed for easy use with just a single start/stop control and all parts of the machine readily accessible.

In addition to the 150 form in-feed hopper for automatic folding and sealing the PS15 incorporates a 'Jog Reverse' feature.

Pressure seal stationery is most commonly used for payroll related documents but any single part mailing can be adapted to give the benefits pressure seal brings, e.g. letters, Cheques, BACS Remittance Advices, Appointment Reminders and Direct Marketing Literature.

For a demonstration of the PS15 folder sealer please contact us.
