

The new PS600 folder/sealer is the ultimate machine for the medium to large volume processing of one-piece mailers. And it's easy... print your documents on pressure seal paper, put them in the PS600 and switch on. Moments later your documents will have been folded and sealed ready for posting.

Whether you're processing payslips, pension forms, direct mail, remittance advice slips or any other confidential form or mailing document, the PS600 will save you time and money. By folding and sealing your forms at up to 18,000 forms per hour, the PS600 will leave you with time to concentrate on other tasks.

At the same time, in addition to being tamperproof, this single piece mailer will save you the costs of the envelopes and form insertions.

Fitting easily into any office environment the PS600 will work with your existing impact or laser printer. It's also extremely easy to use. With the pressure seal process there's no liquid glue, water or heat, therefore no risk of mess or burns.

Paper flow is electronically monitored and the system will automatically shut down in the event of interruption; you can immediately begin operations without disrupting document sequence or count. In addition, an out feed counter is a standard feature, to allow easy calculation of processed documents.

A full technical specification appears overleaf but, of course, the best way to appreciate how the PS600 will work for your business is to see it in action. Call us for a demonstration - we're sure you'll be impressed with what you see.

Tech info

- Processing speed: Up to 18,000 forms per hour (A4 Z-Fold)
- Feeder Capacity: 500 sheet capacity bottom feed
- Form size: L 203mm (8") to 610mm (24") x W 300mm (11.8") maximum
- Fold configurations: V, C and Z
- Paper weights: 80gsm to 120gsm
- Sealer: Integral 4 roller
- Colour: Light grey
- Size: H1200mm x L 1200mm x W 650mm (excluding conveyor)
- Weight: 222kg
- Power: 230V 50/60 +/- 10%
- Warranty: Refer to local distributor

Accessories / Options

- Sound proof cover
- Vertical stacker
- Deep pile feeder
